Welcome to ASARACEA’s Partners Page and thank you for your interest in being our valued and trust-worthy partner.

About Our Partnership

ASARECA is an African led institution with a pool of experts in agricultural research and development from within the Eastern and Central African region. We carry out our work through multi-stakeholder projects in collaboration with multi-disciplinary partners in the member countries.

We have a unique structure built on partnership with farmers, national, regional and international research, extension and training organizations; public and private sector actors, NGOs, development agencies, governments and regional economic communities.

We broker sustainable partnerships between countries, to help them to work more effectively and cost efficiently for a sustainable agricultural sector.

We are a regional agricultural knowledge hub that facilitates various partners to learn from one another by generating, accessing and sharing information.

ASARECA’s membership is categorized as follows:

Core Members include the governments, national agricultural research institutes, CG system.
